Doodle your debt

- RAINBOWS -

Print out Page 3 of this document. Create a secret money value for each rainbow. Have fun doodling your debt away and enjoy all the rainbows after the storm.

colour in ideas!

We would LOVE to see your doodles, show us on www.facebook.com/TheWealthchef/

How to Rainbow (it's easy!)

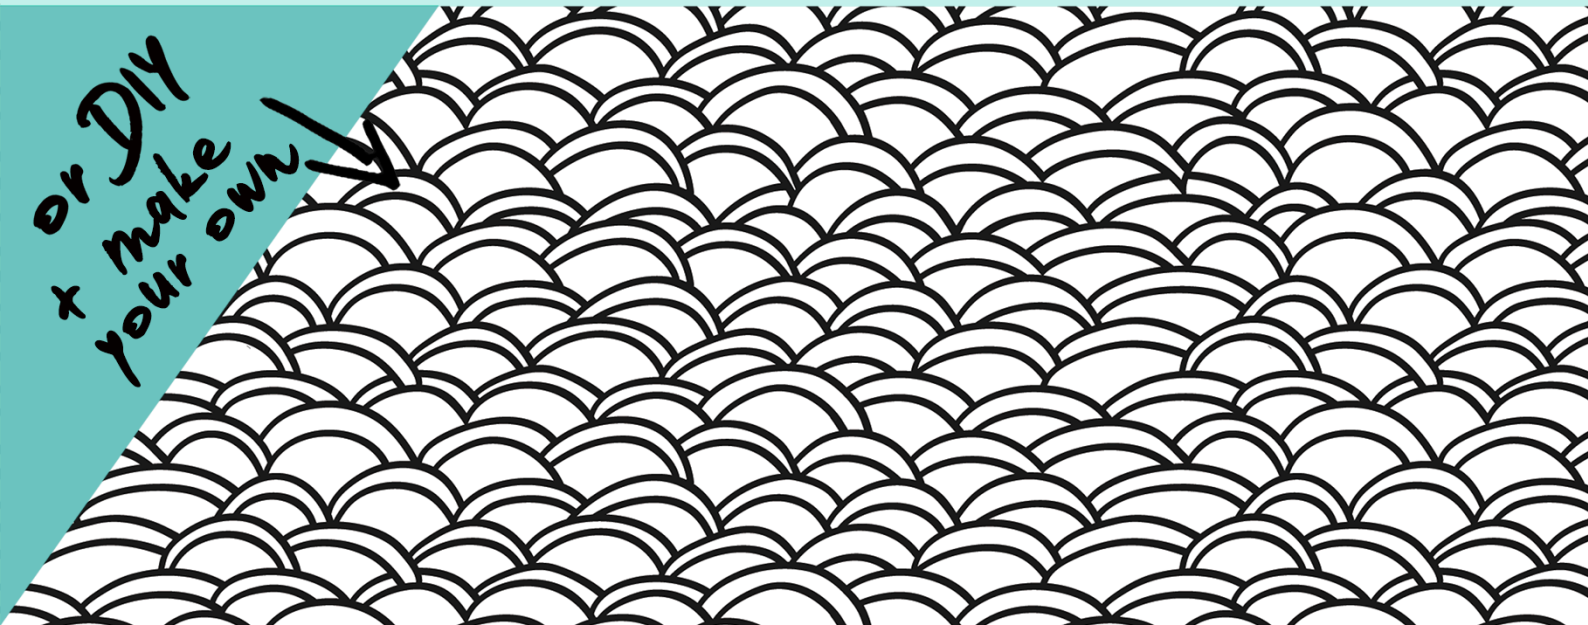
- GET STARTED -

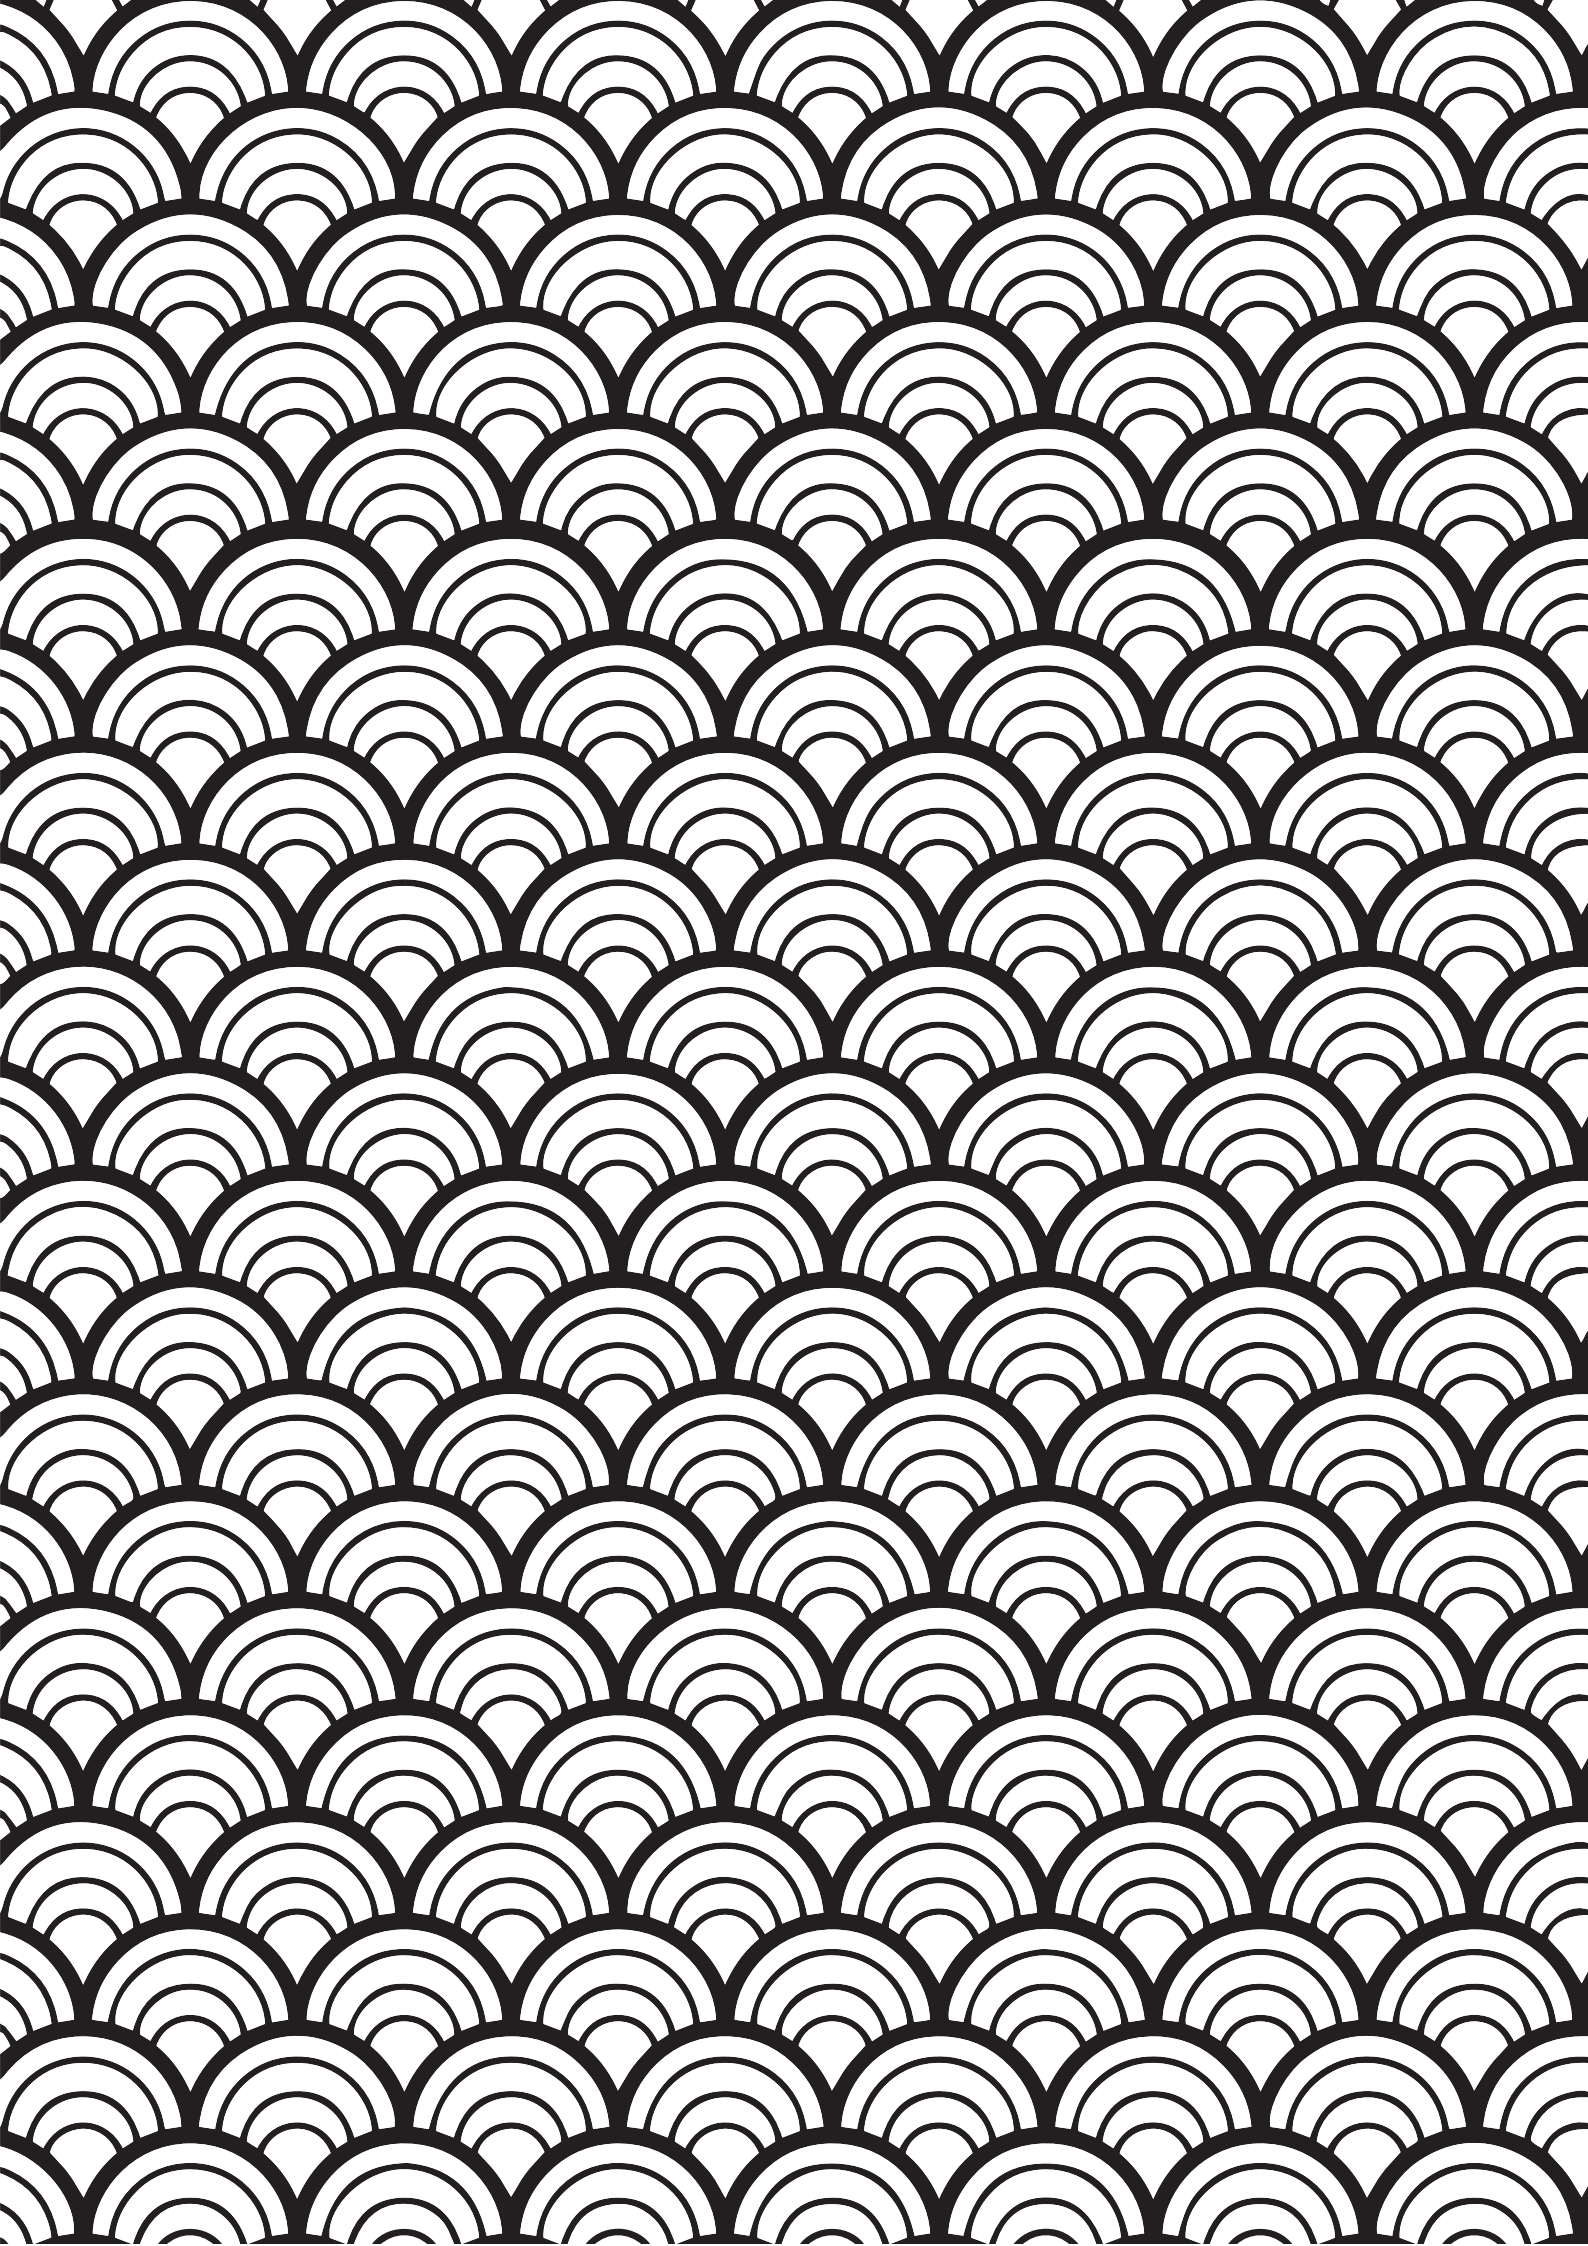
(print out the page that follows)

HOW TO CREATE A SECRET MONEY VALUE FOR EACH RAINBOW

1. There are 147 rainbows in total on this sheet.
2. Divide your chosen Debt Blitzing Target by 147.
3. This gives you your debt chunk number and each time you blitz that amount of debt you get to colour in one block.

If you like you can Do-It-Yourself and make your own rainbow pattern.

We would love to see your work and progress. Use the hashtag **#Doodleyourdebt** and share with us at **www.facebook.com/TheWealthChef/**




See you somewhere over the rainbow!
